

Custom Standards Reports - Premium

User Guide

Written by Matt Freund

February 8, 2017

To access the reports, click on Special Functions from the left admin navigation menu and then click on the Custom Standards Reports link:

Current Users	Shows the names of those currently signed in.
Custom Standards Reports	Custom Standards Reports.
Daily Bulletin Setup	Adds and edits items on the daily bulletin.

The Custom Standards Reports page will contain a menu with these reports:

Custom Standards Reports

Report	Description
Standards Grades Search Tool	Search for standards grades.
Standards Grades % Breakdown	Gives a breakdown of standards grades for a specific grade level.
Count of Assignments Tied to a Standard	Shows how many assignments have been tied to standards.
Count of Grades Given to a Standard	Shows how many grades were given to a standard for a given term.
District Reports - Breakdowns	Description
All Standards	Shows how different schools have graded all standards.
Parent Standard	Shows how different schools have graded standards tied to a parent.
Scored Standard	Shows how different schools have graded a standard.
Standards Tied to a Course	Shows how different schools have graded standards tied to a course.

The first four reports run for the current school only. If you try to run the reports while in district office, you will not see the drop-down menus or date boxes to use to enter report criteria. The last four reports will run at a school or district level.

When you click on a report link, the report will appear with an Overview and Directions at the top of the page. Please read them carefully. The reports may take awhile to complete if you have a large amount of standards data. Your browser may be unresponsive during those times until the page completes loading. You should see visual cues, such as a spinner on the drop-down menus, or the word 'Loading....' on the report, while data is being retrieved.

Starting with the next page, the rest of this guide covers each of the reports in more detail.

Standards Grade Search Tool

This report will allow you to search for standards grades for the current year in the current school. When the report first loads you will see a couple drop-downs and column headings:

Term:

Standard Grade:

Submit

Student	Grade Level	Identifier	Name	Teacher	Grade	Term	Last Updated
---------	-------------	------------	------	---------	-------	------	--------------

The Term drop-down is built based on grading term bins associated with the school. It will display all of the possible terms. Once you choose a term, the Standard Grade drop-down will populate based on data in the StandardGradeSection table. The choices are based on the term chosen and provide a list of grades given for the that term and the number of grades for each choice:

Term:

Standard Grade:

Submit

Student	Grade Level	Name	Teacher	Grade
View All				
A - 11,637				
B - 1,015				
E - 27,492				
M - 18,354				

You can run the report for a specific grade or view the results for all the grades by selecting View All. Click Submit once you have made a selection. The results will appear below the column headings. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term or grade, you will need to click the Submit button to refresh the report:

Search:

Student	Grade Level	Identifier	Name	Teacher	Grade	Term	Last Updated
Aikinson, Andy G	12	FT.CN.04	(+) Represent complex numbers on complex plane in rectangular and polar form	Bryant, Renata L	B	Q1	06/17/2016
Allred, Christopher	11	11.RI.01	Cite strong textual evidence to support	Hastings, Jacquelyn	B	Q1	06/17/2016

Standards Grades % Breakdown

This report will give you a breakdown of standards grades for a grade level. When the report first loads you will see a couple drop-downs and column headings:

Term:

Grade Level:

Submit

Identifier	Grade Level	Standard	Grade	Total	Overall Total	% of Overall
------------	-------------	----------	-------	-------	---------------	--------------

The Term drop-down is built based on grading term bins associated with the school. It will display all of the possible terms. Once you choose a term, the Grade Level drop-down will populate based on data in the StandardGradeSection table. The choices are based on the term chosen and provide a list of grade levels with data given the Term that was chosen:

Term:

Grade Level:

Submit

Identifier	Grade Level	Standard	Grade	Total
------------	-------------	----------	-------	-------

Click Submit once you have made a selection. The results will appear below the column headings. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term or grade level, you will need to click the Submit button to refresh the report:

TAB

Identifier

Grade

Search:

Identifier	Grade Level	Grade	Total	Overall Total	% of Overall
10.L.01b - Use various types of phrases and clauses to convey specific meanings					
10.L.01b	11	B	1	106	1%
10.L.01b	11	A	27	106	25%
10.L.01b	11	M	36	106	34%
10.L.01b	11	E	42	106	40%
10.L.02 - Demonstrate capitalization, punctuation, and spelling when writing					

Count of Assignments Tied to a Standard

This report will give you a count of how many assignments have been tied to standards at the current school. When the report first loads you will see a couple boxes for dates and column headings:

Beginning Date:  **Ending Date:**  **Submit**

Parent	Identifier	Name	Count
--------	------------	------	-------

The initial Beginning and Ending Dates will be the dates for the term you're in. You can click on the calendar icon to the right of either date to choose a different date. The report will only count assignments created within the date range you specify. Click the Submit button to run the report. The results will appear below the column headings. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you change the dates, you will need to click the Submit button to refresh the report.

10.L.02	10.L.02a	Use a semicolon to link two or more closely	Q1	112

District Breakdown of All Standards

This report will give you a breakdown of how many grades have been given to all the scored standards in the district for the current year for the term chosen. It will compare the grading scale for the standard with grades given and return a breakdown for each school in the district that has graded the standard. When the report first loads you will see a drop-down menu to select a term to use for the report:

Term:

Parent	Identifier	Standard	School	Breakdown (Grade - Count - % of Total)	Total
--------	------------	----------	--------	--	-------

The Term drop-down is built based on all grading terms in the district. Click Submit once you have made a selection. The results will appear below the column headings. You should see a line for each school that gave scores for the standard. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term, you will need to click the Submit button to refresh the report:

Copy CSV TAB

Parent	Standard			School	Search: <input type="text"/>	
Parent	Identifier	School	Breakdown (Grade - Count - % of Total)	Total		
1.G.01 - Distinguish defining attributes of shapes						
1.G	1.G.01	WE	A - 3 - 9%, B - 2 - 6%, D - 0 - 0%, E - 19 - 56%, M - 10 - 29%	34		
1.G.02 - Compose two-dimensional and three-dimensional shapes						
1.G	1.G.02	WE	A - 3 - 9%, B - 2 - 6%, D - 0 - 0%, E - 20 - 57%, M - 10 - 29%	35		
1.G.03 - Partition circles and rectangles into two and four equal shares						

The example above only shows one school due to data on the test server. However, if multiple schools have graded the standard, they will be listed in alphabetical order under the standard.

District Breakdown by Parent Standard

This report will give you a breakdown of how many grades have been given to all the standards in the district for the current year for the term and parent standard chosen. It will compare the grading scale for the standard with grades given and return a breakdown for each school in the district that has graded the standard. When the report first loads you will see a couple drop-down menus to use for the report:

Term: Q1

Standard:

Submit

Sort	Identifier	Standard	School	Breakdown (Grade - Count - % of Total)	Total
------	------------	----------	--------	--	-------

The Term drop-down is built based on all grading terms in the district. Once you choose a term, the Standard drop-down will populate based on data in the StandardGradeSection table. Click Submit once you have made a selection. The results will appear below the column headings. You should see a line for each school that gave scores for the standard. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term, you will need to click the Submit button to refresh the report:

1.L.01 - Demonstrate command of English grammar when writing or speaking			
1.L.01	WE	A - 3 - 16%, B - 1 - 5%, D - 0 - 0%, E - 8 - 42%, M - 7 - 37%	19
1.L.02 - Demonstrate command of capitalization, punctuation, and spelling when writing			
1.L.02	WE	A - 1 - 6%, B - 0 - 0%, D - 0 - 0%, E - 9 - 53%, M - 7 - 41%	17
1.L.05 - Understand word relationships and nuances in meanings			

The example above only shows one school due to data on the test server. However, if multiple schools have graded the standard, they will be listed in alphabetical order under the standard.

District Breakdown for a Scored Standard

This report will give you a breakdown of how many grades have been given to a standard in the district for the current year for the term and standard chosen. It will compare the grading scale for the standard with grades given and return a breakdown for each school in the district that has graded the standard. When the report first loads you will see a couple drop-down menus to use for the report:

Term:

Standard:

Submit

Identifier	Standard	School	Breakdown (Grade - Count - % of Total)	Total
------------	----------	--------	--	-------

The Term drop-down is built based on all grading terms in the district. Once you choose a term, the Standard drop-down will populate based on data in the StandardGradeSection table. Click Submit once you have made a selection. The results will appear below the column headings. You should see a line for each school that gave scores for the standard. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term, you will need to click the Submit button to refresh the report:

Identifier	School	Breakdown (Grade - Count - % of Total)	Total
1.L.02b - Use end punctuation for sentences			
1.L.02b	WE	A - 1 - 6%, B - 0 - 0%, D - 0 - 0%, E - 9 - 53%, M - 7 - 41%	17

The example above only shows one school due to data on the test server. However, if multiple schools have graded the standard, they will be listed in alphabetical order under the standard.

District Breakdown of Standards Tied to a Course

This report will give you a breakdown of how many grades have been given to a standard in the district for the current year for the term and course chosen. It will compare the grading scale for the standard with grades given and return a breakdown for each school in the district that has graded the standard. When the report first loads you will see a couple drop-down menus to use for the report:

Term:

Course:

Submit

Identifier	Standard	School	Breakdown (Grade - Count - % of Total)	Total
------------	----------	--------	--	-------

The Term drop-down is built based on all grading terms in the district and the Course drop-down is any course that has standards tied to it. Click Submit once you have made a selection. The results will appear below the column headings. You should see a line for each school that gave scores for the standard. You can filter the results using the column drop-down menus, or export the data on the screen using the Copy, CSV, or TAB buttons. If you choose a different term, you will need to click the Submit button to refresh the report:
