

😊 Adding Emoji's to your Assignment List 😊 (and they appear everywhere else too!)

Emoji's – they are used nearly everywhere. If you wanted to use them within PowerSchool – on the assignments – you now can. **Always pick an appropriate emoji!**

PLEASE NOTE- MANY ADMINSTRATIONS DO NOT ALLOW EMOJI's to be entered into narrative comments. They may need to approve them in your gradebook as well!

Here is a Cuban Flag next to an assignment that has the word Cuba in it!

1. Create your assignment as usual
2. After you name the assignment, return your cursor in front of the name you typed.

Test	2. 🇺🇸 40 Min.NearPod.Cuba	0 / 12	10/2/2020	Percent pts: 10	
------	---------------------------	--------	-----------	--------------------	--

3. On a Mac – use Control key PLUS the Command Key and the Space bar... this is a three-finger requirement.
4. All sorts of emoji options come up- here are just the flags.
5. Select the one you want, and it will place it where the curse is located.
6. Once you place the emoji it shows up nearly everywhere including the parent portal (Assignments as well as the Scoresheet)
7. To remove them – go to the name of the assignment after the emoji and simply delete (and it goes away everywhere!)
